About Me

I'm a developer who loves turning mine toughs problems into simple, useful products across web, AI, and Android.
What excites me most is building things that genuinely help people and doing it together with others.

Education

- **B.Tech in Computer Science & Engineering**
  Netaji Subhash University, Jamshedpur | 2024–2028
- **Higher Secondary (10+2)**
  Vivek Vidyalaya School, Jamshedpur | 2022–2024

Projects

Automata Engine

- This is an interactive learning tool for engineering students to visualize and understand automata theory concepts - DFA, NFA, PDA, and Turing Machines with AI-powered assistance with integrated APIs and Visualisation.
- Tech: API Integration, JavaScript, HTML, CSS
- Integrated Google Gemini for AI-driven explanations and diagram generation
- Supports dark/light themes, fully responsive, and WCAG accessible
- Covers regex, context-free grammars, Moore & Mealy machines, and more
- Live Demo

DevChatPro

- A full-featured messaging and video calling app built as a modern alternative for everyday communication.
- Tech- Node.js, Express.js, Firebase Admin SDK, React.js, Vercel(Frontend), Render(Backend), CSS, Jest (or similar for testing), Cloudinary API, WebRTC, Service Worker / PWA
- WhatsApp-style contacts with persistent chat history, typing indicators, and read receipts
- Peer-to-peer voice, video, and screen sharing via WebRTC
- Built with Firebase Auth, JWT, and Socket.io for secure real-time messaging
- PWA-ready with responsive design
- Live Demo

Technical Skills

- **Frontend -** HTML, CSS, JavaScript, React, React Native, Vite
- **Backend –** Java, PHP, Node js, SQL, Express js.
- **Generative AI** – Solid understanding of generative models, transformer layers, and prediction mechanisms.
- **Other** – MongoDB, Cloudinary, Firebase, Livekit, Github, API Integration, Vercel, Render

Achievements

- **1st Place** – Hackathon (Trikaya & BettleX)
  Led my team as the primary developer and secured first position.
- **Runner-Up** – Tech Event, NSU
  Rapid e-commerce website build challenge.
- **Top 5 Finalist** – Hackathon (RVS Engineering College)
  Represented my team on stage, presenting our project and technical approach.

Certifications

- **Java Core** – Sri Ram Academy (October 2024)
- **Java Advanced** – Sri Ram Academy (October 2024)
