

ADITYA SONI

B.Tech, Computer Science & Engineering

✉ adityasoniworkmail@gmail.com  [LinkedIn](#) · [GitHub](#) · [Portfolio](#)

Mobile No. 9031112667, **Address:** BN67, Balaji Nagar, Chhota Govindpur, Jamshedpur-831015, Jharkhand(INDIA)

About Me

Fresher Software Engineer skilled in full-stack web development and applied machine learning. B.Tech Student(GPA: 8.02) with expertise in Python, Django, React, SQL, and MongoDB. Familiar with CI/CD pipelining for automating build, testing, and deployment processes, along with developing scalable applications and ML models.

Technical Skills

- **Frontend/Framework** – HTML5, CSS3, JavaScript (ES6+), React.js, React Native, Tailwind CSS, UI/UX
- **Backend/Database** – RESTful APIs, NoSQL, DBMS, Data Structures, Basic Java Concepts Programming, Basic Python Concepts Programming
- **Tools & Platforms** – Git, GitHub, Version Control, Visual Studio Code, API Testing Tools, CI/CD Pipelines
- **AI/ML** – AI Fundamentals, Intro to Machine Learning Techniques, Pandas, NumPy, Scikit-learn, Data Preprocessing, Model Training, NLP Basics, Basic Prompting Techniques
- **Others** – Software Engineering, Project Coordination, Effective Communication

Projects

Automata Engine

- This is an interactive learning tool for engineering students to visualize and understand automata theory concepts - DFA, NFA, PDA, and Turing Machines with AI-powered assistance with integrated APIs and Visualisation.
- Tech: API Integration, JavaScript, HTML, CSS
- Integrated Google Gemini for AI-driven explanations and diagram generation
- Supports dark/light themes, fully responsive, and WCAG accessible
- Covers regex, context-free grammars, Moore & Mealy machines, and more
-  [Live Demo](#)

DevChatPro

- A full-featured messaging and video calling app built as a modern alternative for everyday communication.
- Tech- Node.js, Express.js, Firebase Admin SDK, React.js, Vercel(Frontend), Render(Backend), CSS, Jest (or similar for testing), Cloudinary API, WebRTC, Service Worker / PWA
- WhatsApp-style contacts with persistent chat history, typing indicators, and read receipts
- Peer-to-peer voice, video, and screen sharing via WebRTC
- Built with Firebase Auth, JWT, and Socket.io for secure real-time messaging
- PWA-ready with responsive design
-  [Live Demo](#)

Accomplishments

- **1st Place** – Hackathon (Trikaya & BettleX)
Led my team as the primary developer and secured first position.
- **Runner-Up** – Tech Event, NSU
Rapid e-commerce website build challenge.
- **Top 5 Finalist** – Hackathon (RVS Engineering College)
Represented my team on stage, presenting our project and technical approach.

Education

- **Bachelor of Technology in Computer Science & Engineering**
Netaji Subhash University, Jamshedpur | 2024–2028
- **Higher Secondary (10+2)**
Vivek Vidyalaya School, Jamshedpur | 2022–2024

Certifications

- **Java Core / Java Advanced** – Sri Ram Academy (June 2024 – November 2024)
- **DSA** – Sri Ram Academy (December 2025 – April 2026)
- **Into to ML/AI/Gen AI/ Agentic AI/NLP** – Microsof
